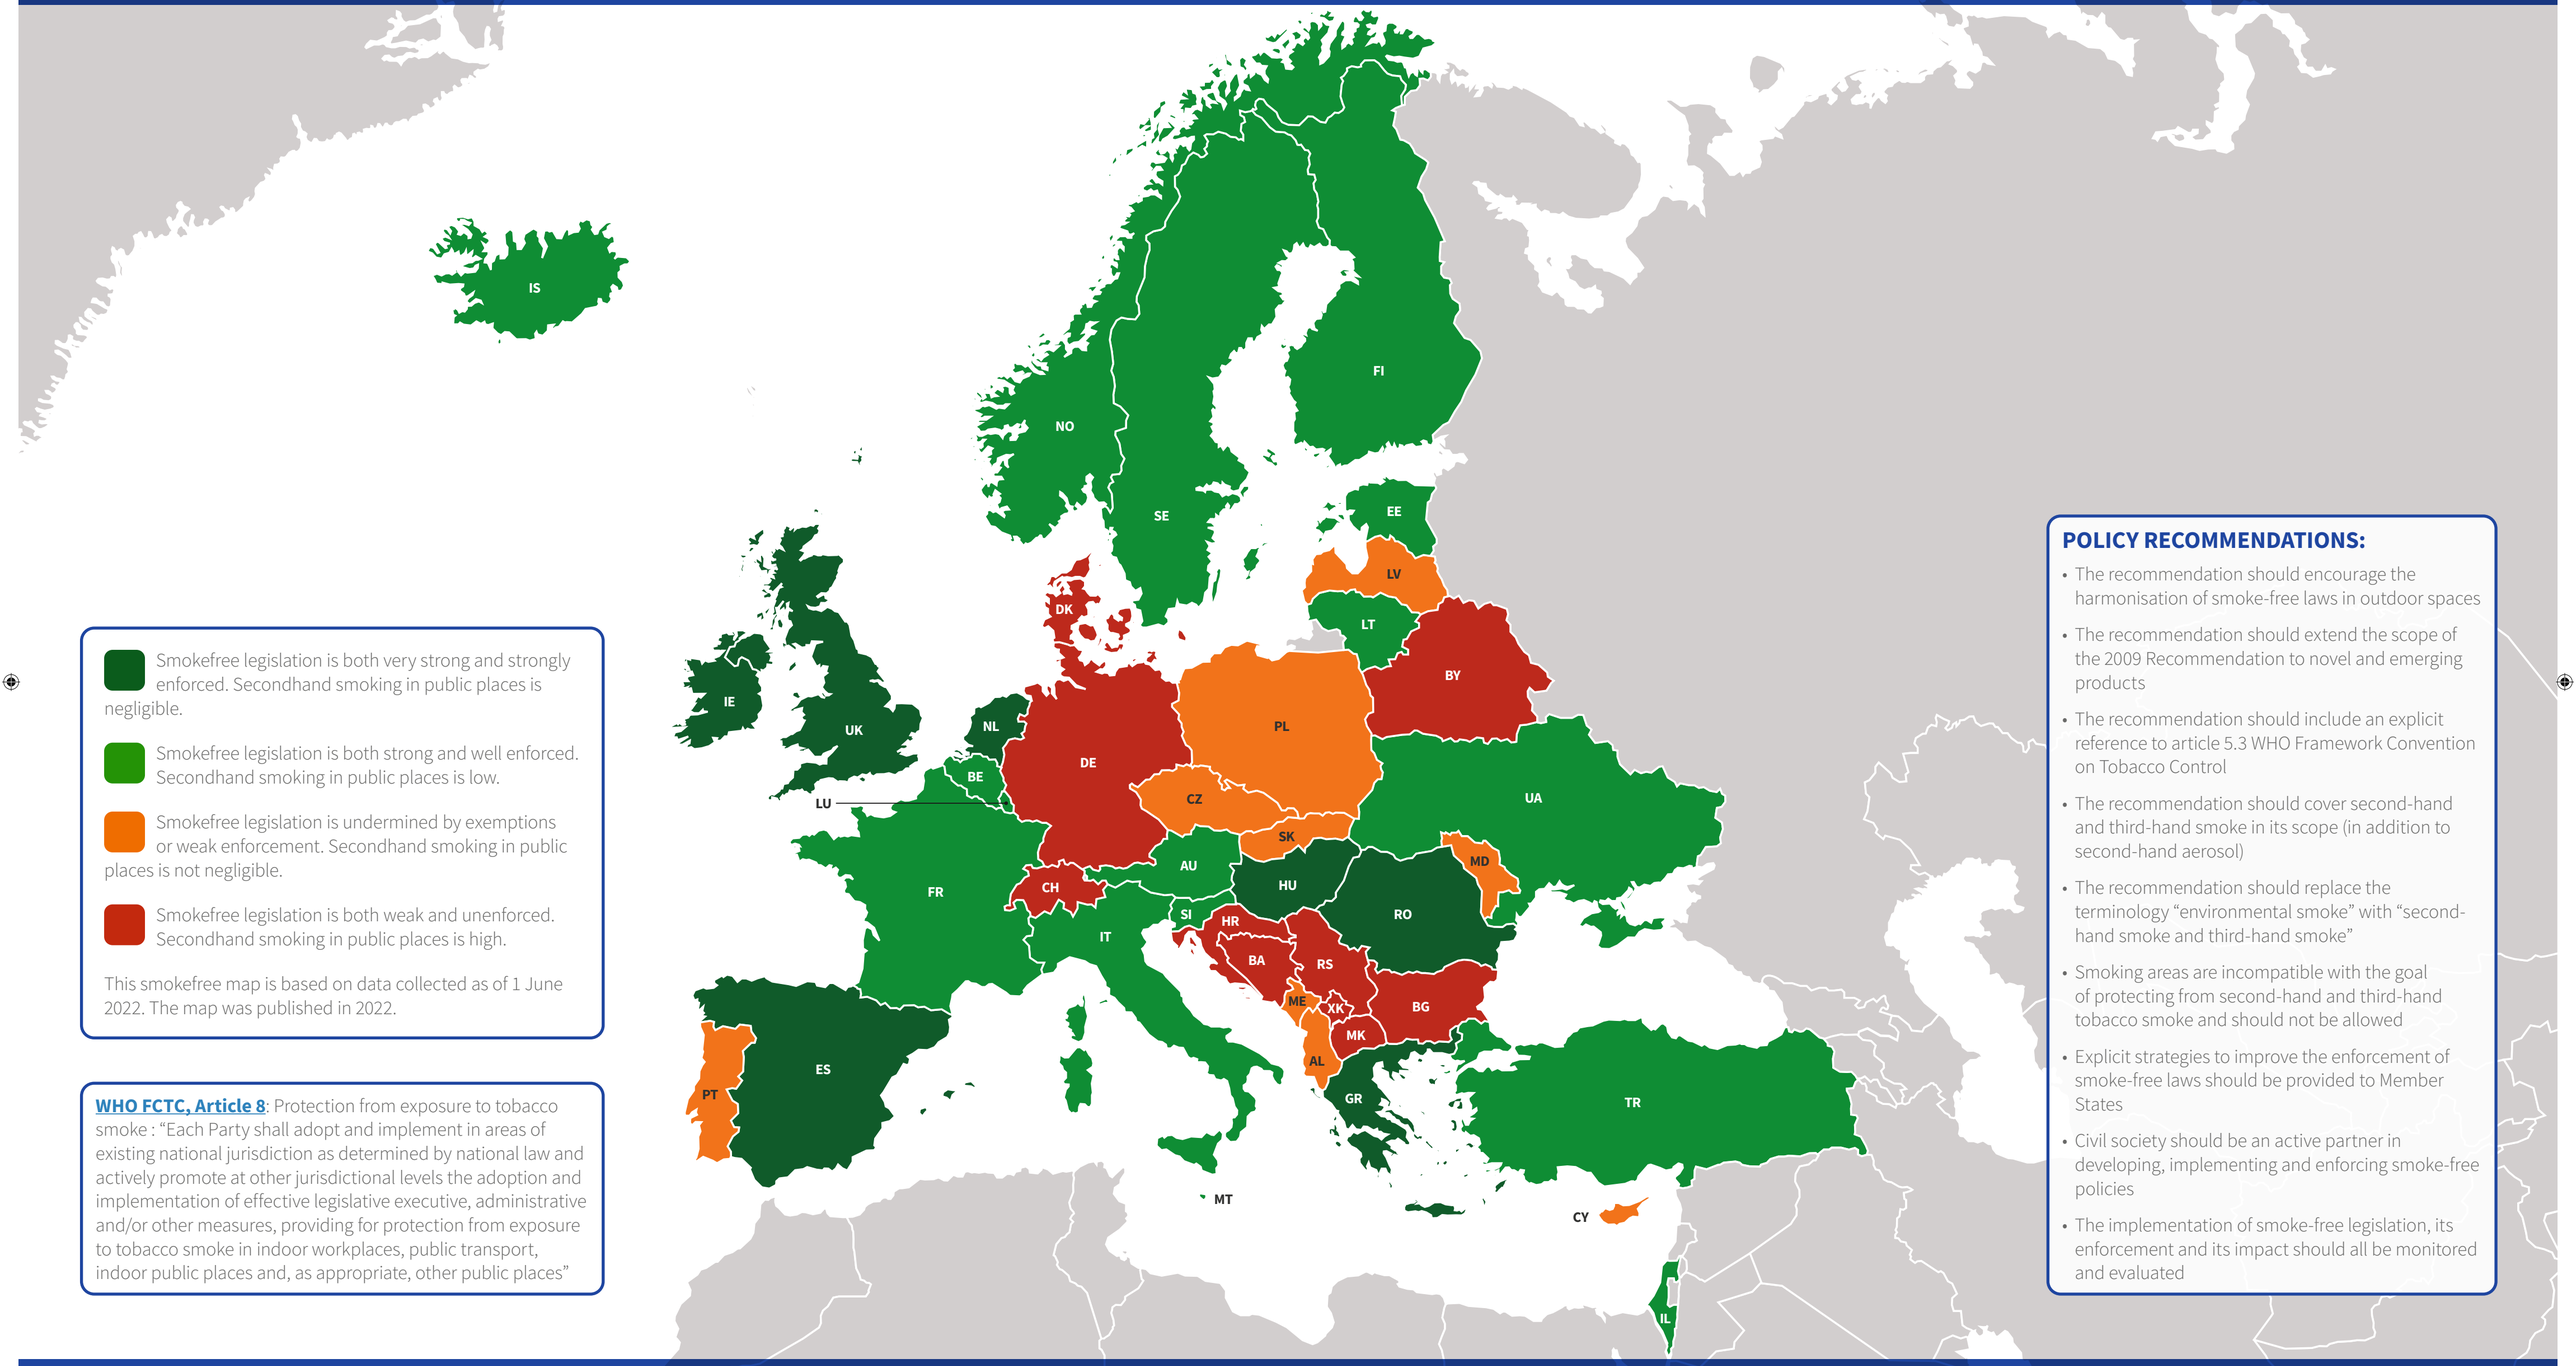
SMOKE FREE PARTNERSHIP

Smokefree Map 2022



- Smokefree legislation is both very strong and strongly enforced. Secondhand smoking in public places is negligible.
- Smokefree legislation is both strong and well enforced. Secondhand smoking in public places is low.
- Smokefree legislation is undermined by exemptions or weak enforcement. Secondhand smoking in public places is not negligible.
- Smokefree legislation is both weak and unenforced. Secondhand smoking in public places is high.

This smokefree map is based on data collected as of 1 June 2022. The map was published in 2022.

WHO FCTC, Article 8: Protection from exposure to tobacco smoke : "Each Party shall adopt and implement in areas of existing national jurisdiction as determined by national law and actively promote at other jurisdictional levels the adoption and implementation of effective legislative executive, administrative and/or other measures, providing for protection from exposure to tobacco smoke in indoor workplaces, public transport, indoor public places and, as appropriate, other public places"

POLICY RECOMMENDATIONS:

- The recommendation should encourage the harmonisation of smoke-free laws in outdoor spaces
- The recommendation should extend the scope of the 2009 Recommendation to novel and emerging products
- The recommendation should include an explicit reference to article 5.3 WHO Framework Convention on Tobacco Control
- The recommendation should cover second-hand and third-hand smoke in its scope (in addition to second-hand aerosol)
- The recommendation should replace the terminology "environmental smoke" with "second-hand smoke and third-hand smoke"
- Smoking areas are incompatible with the goal of protecting from second-hand and third-hand tobacco smoke and should not be allowed
- Explicit strategies to improve the enforcement of smoke-free laws should be provided to Member States
- Civil society should be an active partner in developing, implementing and enforcing smoke-free policies
- The implementation of smoke-free legislation, its enforcement and its impact should all be monitored and evaluated

Co-funded by the EU4Health Programme of the European Union

SFP receives funding under an operating grant from the European Union's EU4Health Programme (2022).
